

ANA

AI Receptionist

Your Smart College Front Desk Assistant

BCA 8th Semester Project · Kantipur City College · 2026

Created by: Ankit Chandra Karn · Srijan Basnet · Suraj Panthi

Introduction

ANA is an intelligent virtual assistant for Kantipur City College that answers college-related questions in a natural, conversational manner.

The Problem

- College enquiries are repetitive.
- Generic chatbots lack institution context.
- Voice and avatar systems can be slow to run.

The Solution

- Grounded answers from real college documents.
- One local app for text, voice, and avatar modes.
- Optimized for fast response and low dependency.

Objectives

- AI-powered receptionist
- Document-grounded answers with FAISS
- Text and voice interaction

Key Features

Smart Chat
